Silkflex Polymers (India) Limited

Silkflex Polymers India Ltd Commences Commercial Production at its State-of-Art Automated Manufacturing Facility in Vadodra, Gujarat, India

Kolkata, November 14th, 2025 - Silkflex Polymers (India) Ltd, a leading supplier of high-performance textile printing inks and auxiliaries with a growing pan-India customer base, is pleased to announce the launch of its first manufacturing facility in the country. The Company has commenced commercial production of its flagship products “**Silkbond 35**” and “**Silkflex Glue**”.

A state-of-the-art, eco-efficient manufacturing hub spread across 10 acres of land, built to power Silkflex India's next phase of growth, featuring a 72,000 sq. ft. fully automated state of art manufacturing facility

Glimpse of Factory Inauguration:

Key Highlights:

- **Scale, Industry & Strategic Significance**

- ✓ Marks a major forward integration for Silkflex Polymers (India) Ltd, strengthening its presence in the specialty textile chemicals industry.
- ✓ Enhances domestic manufacturing capabilities for high-performance, eco-friendly textile binders and glues, reducing import dependence.

- **Installed Production Capacity**

- ✓ Installed capacity of **500 tonnes** a month.
- ✓ Engineered for stable, high-throughput production with scope for modular capacity enhancement.

Silkflex Polymers (India) Limited

- **Products to Be Manufactured**

- ✓ Initial production line focuses on two flagship products:
 - **Silkbond 35 Binder**
 - **Silkflex Glue**

- **Technology, Automation & Process Efficiencies**

- ✓ **Boiler-less manufacturing process**, a rare achievement in the textile chemicals industry, reducing risk, cost, and emissions.
- ✓ **Fully automated, state-of-the-art production facility** ensuring precision, consistency, and minimal human intervention.
- ✓ Advanced process controls designed to deliver superior efficiency and enhanced product quality.

- **Sustainability & Green Initiatives**

- ✓ Products are **zero-discharge in themselves**, reflecting the company's sustainability-first philosophy.
- ✓ **ETP & STP (25,000 litres/day)** established to maintain full environmental compliance.
- ✓ Large surrounding greenfield area enhances environmental balance and energy-efficient design enables long-term operational sustainability.

- **Capital Investment**

- ✓ Facility is developed with a total capital investment of approximate **₹40 crores**.

- **Strategic Location & Logistics Advantage**

- ✓ Located in the **centre of a major industrial zone**, with seamless access to the state highway.
- ✓ Proximity to major textile processing hubs - **Surat, Ahmedabad, Mumbai, and the broader Western Indian textile belt**.
- ✓ Provides strong logistical connectivity, reducing supply timelines and improving customer responsiveness.

Commenting on this achievement, Mr. Tushar Lalit Kumar Sanghavi, Chairman & Managing Director, Silkflex Polymers (India) Ltd, said,

"We are delighted to announce the launch of our long-awaited manufacturing facility, a milestone that marks the beginning of a new and exciting growth phase for Silkflex Polymers (India) Ltd. This plant represents years of planning, commitment, and belief in India's potential to lead the next wave of sustainable textile chemistry. Built across 10 acres with a highly automated, boiler-less and eco-efficient design, this facility strengthens our capability to deliver world-class, environmentally responsible products to the textile industry.

With an initial focus on Silkbond 35 and Silkflex Glue, and a production capacity of 500 tonnes a month, we are now fully equipped to meet the rising demand from major textile hubs across the western region. This launch not only reduces our dependence on imports for these two products but also enhances our ability to scale, and serve our customers faster and more efficiently. We are confident that this strategic expansion will unlock significant value for all stakeholders and propel Silkflex India into its next era of sustainable and profitable growth."

Silkflex Polymers (India) Limited

About Silkflex Polymers (India) Limited

Founded in 2016 by the late Mr. Lalit Kumar Hargovindas Sanghavi and Mr. Tushar Lalit Kumar Sanghavi, Silkflex Polymers (India) Ltd is the exclusive distributor of Silkflex's eco-friendly, water-based textile inks and wood coating polymers in India. The company has built a strong presence across the textiles, garments, and furniture sectors, offering a wide portfolio of 108 textile printing inks and 51 wood coating products sourced from Silkflex Polymers SDN BHD, Malaysia.

With a commitment to sustainability and high-performance chemistry, Silkflex Polymers (India) Ltd is expanding its footprint by venturing into domestic manufacturing of advanced textile ink products. Its product range is backed by globally recognized certifications such as ZDHC Level 3, OEKO-TEX® Eco Passport, GOTS 7.0, and GREENGUARD, reinforcing the company's focus on safe, environmentally responsible, and industry-compliant solutions for the Indian market.

Safe Harbour Statement

Any forward-looking statements about expected future events, financial and operating results of the Company are based on certain assumptions, which the Company does not guarantee the fulfilment of. These statements are subject to risks and uncertainties. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect the Company's operations include a downtrend in the industry, global or domestic or both, significant changes in the political and economic environment in India or key markets abroad, tax laws, litigation, labour relations, exchange rate fluctuations, technological changes, investment and business income, cash flow projections, interest, and other costs. The Company does not undertake any obligation to update forward-looking statements to reflect events or circumstances after the date thereof.
