

SILKFLEX[®]

Silkflex Polymers India Limited

Your trusted partner in water-based textile inks
& premium wood coatings

ABOUT US

Silkflex Polymers (India) Limited is a rapidly growing player in the Indian specialty chemicals sector, particularly known for its environmentally sustainable, high-performance textile printing inks and wood coating polymers. Incorporated on December 13, 2016, and headquartered in Howrah, West Bengal, the company operates under an exclusive licensing and distribution agreement with Silkflex Polymers SDN BHD, Malaysia—a globally recognized brand in water-based printing technology. The company's leadership is spearheaded by Mr. Tushar Lalit Kumar Sanghavi, who brings a strategic vision focused on innovation, sustainability, and service excellence.

Achievement

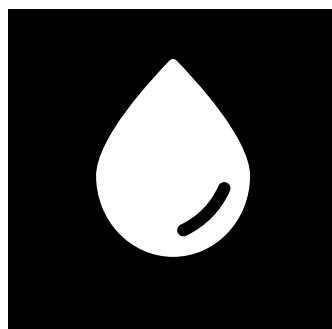

OUR HISTORY

Silkfex Polymers (India) Limited, established in 2016 by the late Lalit Sanghavi and Mr. Tushar Sanghavi, has grown from a distributor of eco-friendly textile inks to a pan-India leader in sustainable textile and wood coatings, recently achieving NSE listing and preparing for domestic manufacturing expansion.

OUR PRODUCTS

Textile Printing Inks

The company offers a diverse range of 108 products in the textile printing segment, including:

- Water-based pigment inks
- PVC-free printing inks
- Special effects (glitter, puff, discharge, glow-in-the-dark)
- Fluorescent and metallic inks
- Foil adhesives and binders
- Table adhesives (binders and glues)
- Screen coating emulsions

These inks are extensively used in screen printing processes and are widely accepted in the garment export industry for their quality and ecocompliance.

Wood Coating Polymers

In the wood finishes category, Silkflex India distributes 51 product formulations, including:

- Sealers and primers
- Stains and colorants
- Water-based and solvent-based coatings Additives and accessories for polishing and finishing

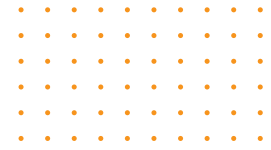

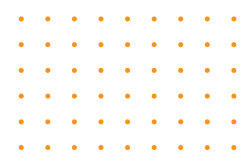

These are suitable for use in furniture, paneling, and decorative wood applications.
